HIGH PERFORMANCE LIGHTING SYSTEMS

**NEW 530 SERIES L.E.D.**

**Driving Kit PN 5372**  
**Fog Kit PN 5370**

**PIAA 530 LED 3-1/2" fog and driving lamps** feature exclusive reflector-facing LED bulbs and a geometrically-perfect reflector to provide precise beam control and increased output compared with ordinary halogen bulbs. The LED bulbs are much more durable than halogen bulbs, provide more output and consume far less power. Available in True Fog and Long Range Driving beam patterns.

**PIAA's advanced Reflector Facing Technology (RFT)**

Key to achieving these performance advantages is PIAA's advanced Reflective Facing Technology (RFT). PIAA's exclusive computer-designed, multi-surface reflector concentrates and focuses the beam pattern of the rearward-facing LED bulbs more precisely than forward-facing LED lamps. RFT is featured in PIAA's new 530 LED Series lamps.

**NEW**

**10-13 JEEP WRANGLER LED VSK**

**DRIVING KIT PART NUMBER 5332**  
**BRACKET ONLY PART NUMBER 30330**

**OEM HEADLIGHT AND FOG BULB COLOR**

**PIAA JEEP VSK WITH H13 XTREME WHITE BULBS**

**OEM HEADLIGHT AND FOG LIGHT OUTPUT**

**PIAA JEEP VSK WITH H13 XTREME WHITE HEADLIGHT BULBS**

PIAA's Jeep Wrangler Vehicle Specific Kit replaces the OEM fog lights with our new LP530 LED Driving Lamps. The LP530's Provide far more output and consume less power than the factory fog's. Kit comes with 2 mounting brackets, hardware, and wiring harness. A must have upgrade for any Jeep. ( Fog option order bracket number 30330 and LP530 LED Fog PN 5370)
